INVISALIGN®

Willamette Dental offers Invisalign® treatment as an option for our orthodontic patients. This treatment is only available through licensed Willamette Dental orthodontists in our dental office locations that offer orthodontic services. The suitability of Invisalign treatment for each patient is determined by their Willamette Dental orthodontist based on several factors including alignment goals, patient cooperation and current oral health.

AT-HOME PATIENT PRODUCTS

Willamette Dental has carefully selected dental care products that are available to you at most Willamette Dental offices. We only offer those products that have been clinically proved to be the most effective at improving your oral health. Through special arrangements with manufacturers, we're able to sell these products to our patients at discounted prices. By purchasing your recommended dental care products directly from your dentist, you will receive customized care and professional guidance on all products that is not available at retail stores.
